

Extra credit assignment (worth 2 points in the quiz category)

Complete the **UW CSE 142** final exam available on <https://practiceit.cs.washington.edu>

Solve all of the problems except the problem titled “Shark”. For each problem, include a screenshot of your work, such as for instance for the expressions question:

🟡 You passed 2 of 5 tests. Try again.

#	question	your answer	result
1	$3 * 1.0 + 15 / 2$	10.0	✅ pass
2	$17 \% 10 + 1 / 5 + 0.5 * 4$		❌ fail
3	$15 \% 3 / 4 + 22.0 / 4 * (14 / 4)$		❌ fail
4	$!(3 > 27) 0.03 > 0.2 \&\& 2 < 3 + 5$		❌ fail
5	$12 - 5 + "2 - 1" + 13 / 2$	"72 - 16"	✅ pass

Try your best, but you don't need to solve correctly all of the questions. This exercise is meant to assess your current knowledge of Java.

Include also a self-evaluation of your work:

- 1) What did you do well?**
- 2) Which areas do you think would require a review?**
- 3) Did you feel adequately prepared for this test after taking CSC 142.**

Save your work as a pdf file and turn in your assignment on Canvas (10/3 by 11 pm). Good luck!
