

Notes for Quiz 4

- 1) Find the big O of a given code snippet. Check the examples done in class (available on the class calendar under 11/8), and the exercises of PracticeIt (search for big-oh)

Search Problems by Keyword:

big-oh (all languages)

- 2) Linked lists
Review what we did in class (available on the class calendar under 11/14), and do some of the problems in PracticeIt. There will be one question about ListNodes and another asking to write a method for a LinkedList class.

Search Problems by Keyword:

linked lists (all languages)
